

[REDACTED] 25X1A

Walt:

Attached is the paper and memo I discussed with you this morning. [REDACTED] has asked for an OSI reply by COB Monday night, 20 Feb. The covering memo is self-explanatory and, in effect, it asks for a DD/S&T evaluation of the intelligence we expect to derive through the use of these near-term projects by the end of next year. Please note, also, that Don gave an illustration of how this information might be given as shown in Attachment B. (over)

25X1A

If you have any questions immediately, you might call me; but, if there are any other questions, please have [REDACTED] call [REDACTED] X 1578.
